

Art & Craft Activities

What will I study?

Craft based practical units of work including:

- Glass decoration and etching
- Learn to make ceramic pots and vessels and glaze them
- Screen printing and textiles

A visit to either Anta pottery in Tain or Glass storm studio.

What skills will I develop?

New practical skills that will help you create items that can be sold at craft fairs.

The practical skills you are learning will support your Nat 5 / Higher or AH courses.

Pieces you produce can be used as part of a portfolio application for college or art college.

You will need to market and advertise one of your products for sale at the Spring fair.

How will I be assessed?

There is no formal assessment and no written work.

You will need to make a piece to National 5 standard.

Do I need to have taken Art recently?

No—but we expect you to be able to draw or learn to draw, and keep a sketchbook diary of all your work processes and final pieces.

Need more info? -

Visit the Art department to see examples.
