

What will I study?

In this course you will work toward 3 qualifications.

1. Powering Futures SCQF level 6

This aspect of the course involves a year long group project where, as a team, you tackle a real life challenge and create a sustainable solution. It requires significant commitment to attendance and being a strong part of your group.

2. Barista Skills SCQF level 5

This part of the course focuses on foundational technical and customer service abilities, covering knowledge of coffee/drinks, operating espresso machines (grinding, tamping, steaming milk, pouring), preparing various hot/cold beverages, cleaning equipment, and providing good customer service in a fast-paced setting.

3. NPA Tenancy SCQF level 4

This part of the course focuses on learning essential life and practical skills for securing and maintaining a successful tenancy.

What skills will I develop?

- critical meta-skills that employers are looking for
- an understanding of sustainability
- essential life skills including housing choices, budgeting, cooking, preventing social isolation, and developing responsibility.

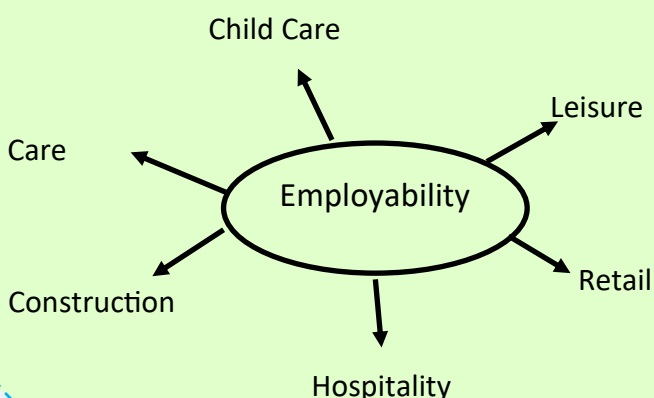

How will I be assessed?

Powering Futures SCQF level 6 final award is gained through a presentation that is held out with school and assessed by the Powering Futures team along with business mentors. **Level 4** units are assessed in school by your class teacher

What can I go on and study in fifth and sixth year?

This course is designed for those pupils intending to leave school.
